# SALINAS DE MALLORCA

## Along the roads of salt

Who would have thought that such a small particle could become so valuable, but the connection of Mallorca's southeast with the world's oldest condiment comes from afar. Phoenicians and Romans harvested salt in Es Trenc and La Colònia de Sant Jordi back in the fourth century BC, taking advantage of abundant seawater and ideal conditions to produce it naturally. Today these salt pans are part of an idyllic natural environment, a haven for birds and visitors who come to visit. Guided tours will introduce you to the scenic delights of the salt pans, their history and the manufacturing process of this "white gold", rich in trace elements and much sought after by the most discerning of gourmets. Come and take a look for yourself!

# GASTRONOMIC MARKETS

## Shall we meet in the market?

These are the heartbeat of the city. The markets of Santa Catalina, Olivar and San Juan have given rise to a new form of leisure. There, in addition to finding the freshest produce, fruit, vegetables, meat and fish, the life of the entire neighbourhood is concentrated in one place.

It is what is known as a gastronomic market, a meeting place, a place to interact, enjoy tapas and variats, oysters, sushi, a glass of white wine... The freshest, most delicious place on the island. The act of buying is becoming a social event and more and more people are meeting up in the markets to enjoy the good life.

# VISIT TO THE CAVES

## Journey to the Centre of the Earth.

Fresh and salt water lakes and rivers, stalactites and stalagmites, almost endless galleries... Mallorca hides a remarkable treasure under your feet: almost 200 caves, of which only a few are visitable. Enormous rock formations, meticulously studied lighting and musical performances await you in the Caves of Drach and Artà, on the north of the island. In the caves of Campanet, in the Serra de Tramuntana, you will discover stunning stalactites and stalagmites and an immense limestone gallery, while in the Cuevas dels Hams, the vagaries of nature have created hook-shaped formations. And in Palma you can visit the caves of Genova. All of the caves are spectacular; get ready to enter into this fascinating underground world!

## LA FUNDACIÓN PILAR I JOAN MIRÓ

### A must-see in Palma de Mallorca.

Overlooking the sea and surrounded by nature, the Fundació Pilar i Joan Miró was created by the artist and his wife for spreading knowledge and artistic creation. The Fundació Pilar i Joan Miró comprises three spectacular buildings of great architectural interest that make for an unmissable visit during your stay on the island. The Sert Studio was designed by the Catalan architect Josep Lluís Sert for Miró once the artist had finally settled in the Majorcan town and it now recreates the creative process followed by the artist. Son Boter is an 18th-century possessió (farmstead) which Miró converted into a second studio for large-scale works. Finally, the Moneo Building houses exhibition halls, a library, shop, auditorium and cafeteria. Immerse yourself in a dream of Miró on a fascinating journey through the life and work of the greatest exponent of Spanish surrealism.

## PALMA COURTYARDS ROUTE

### Discover the hidden gems in the secluded streets of the historic centre of Palma

This route takes us to the beautiful courtyards of the palaces of what were the most influential families in the city. Located in the old town of Palma, these courtyards are a true architectural marvel and this route is an excellent opportunity to learn about this aspect of the town's heritage: the history, the symbolism, and the role that they played in the social life of the time. Some of them also feature in the island's cultural scene, occasionally hosting classical music concerts, exhibitions and many other cultural initiatives.

## LANDSCAPES FROM A TRAIN: VINTAGE TRAIN RIDE TO THE VALLEY OF ORANGE TREES

### Get on the train, pass 13 tunnels, bridges and viaducts and delve into the valley of Sóller.

The rattling of this magnificent wooden train makes quite a big impression on passengers that climb aboard the Sóller Train. It's the same sound heard by the first travellers back in 1912 on its very first voyage. Functioning ever since, still with the original wagon design and materials, the train leaves every day from the centre of Palma, from the charming station designed by Gaspar Bennàssar. The 55 minutes separating you from the valley of the orange trees will seem far too short as you are captivated by the beauty of the landscape and the scent of orange blossom wafting through the window: the Sierra de Tramuntana in all its glory. The train terminates at one of the most beautiful villages of the island, Sóller, where you will see fine examples of the modernist architecture of the island. This is a beautiful trip to be enjoyed from the moment you board the train. We recommend you do it on Saturday, as this is when the market is held.

## MYSTIC MALLORCA

Mallorca exudes symbolism and spirituality. The search for peace encourages us to find unique spaces that have an important historical, cultural and natural significance linked to the island's past, its most famous figures and visitors, and that envelop us in mysticism.

There is the magnificent Cathedral of Mallorca in Palma and the Gothic cloister of San Francisco. The Serra de Tramuntana mountain range, a UNESCO world heritage site, is the setting for the romantic Carthusian Monastery of Valldemossa and the imposing Lluc Sanctuary in Escorca. In the heart of rural Mallorca examples of the island's spirituality can be seen in the Cura Sanctuary in Algaida and the house of Saint Junipero Serra, located in Petra and now a museum. These spaces and many more offer the visitor unique experiences and some even allow you to stay in them.

## FUN FOR ALL THE FAMILY

**Aquariums, water slides, zip lines and everything you can imagine. Dare yourself!**

Mallorca has an exceptional and unique natural environment, thanks to its benign climate, which makes it possible to do outdoor activities throughout the year. And it is this climate that has permitted theme parks, open-air shopping centres and other facilities that complement the natural attractions of the island to be built. Mallorca Fashion Outlets in Marratxí has a wide range of entertainment, dining and fashion. Palma Aquarium in Playa de Palma is one of the most spectacular aquariums in the world. Forestal Park, also in Playa de Palma, and Jungle Park in Bendinat are adventure parks for all ages. Finally, Katmandú Park in Magaluf is an original amusement park. Which do you prefer?

## ESTATES AND GARDENS OF MALLORCA

**An experience that will bring you closer to the heart of rural Mallorca.**

In Mallorca we call them "possessions" and there are hundreds of them all over the island. Many of these ancient mountain farms are open to the public and still preserve their old-world charm and traditions, which they have combined with all sorts of interesting activities that will delight younger visitors. Surrounded by nature, you will enjoy learning about ancestral traditions, reliving the history of these centuries-old farms, playing with animals... La Granja d'Esporles, Els Calderers, Museu de Sa Bassa Blanca, and Raixa are prime examples for you to visit, and Sa Torre Cega organises musical evenings in a spectacular outdoor setting. And if you want to lose yourself in the most beautiful gardens of the island, nothing beats Alfàbia or the Sóller Botanical Garden. Absolutely breathtaking!

## TRIPS WITH TRADITIONAL FISHERMEN IN PROFESSIONAL FISHING BOATS

These trips mean you can discover the beautiful coastline of the Balearic Islands thanks to traditional fishermen who become your expert guides for the three to twelve hours that the fishing boat trips last. The routes we offer include visiting our coastline's most secret coves and caves, enjoying dolphin or bird watching and taking a relaxing dip in an idyllic spot.

Most tourist fishing trips include sampling the fish you have just caught on board, as you spend the day with the fisherman on their usual working day. The trips include fishing demonstrations that you can take part in and you can fish with a rod or a line. This is an exclusive activity as only a maximum of five guests are permitted on board for each trip.

## ENJOY OUR MARINAS IN WINTER

A visit to Mallorca always involves a stop off at the island's most notable marinas: from enchanting, small traditional ports like Portocolom to the splendour of the new Port Adriano marina, or from the emblematic Puerto Portals to local marinas such as the popular Puerto de Andratx.

You can always rely on Port Adriano for interesting events. The innovative marina, with its 488 mooring points for vessels between 6 and 80 metres in length, was designed by Philippe Stark and is the venue for dazzling concerts, shows, exhibitions and thrilling races throughout the year. For example, there is the Spring Festival, show-cooking events with international chefs, the Sunset Yoga event, etc. Puerto Portals, with its 639 mooring points and an exclusive shopping area, is the venue for numerous events, many of which are focussed on motoring and the world of sailing, such as the Oris Classic Car Rally in the spring. There are also regular charity events held to support various local and international foundations, as well as other family activities such as the Christmas Market and the Farmers Market in May, among others.

## THE ORNITHOLOGICAL TOURISM CENTER

The Ornithological Tourism Center is located in La Gola (Port de Pollença). La Gola is a small wetland where the Siller and Gommar torrents merge and end in the sea. Seawater also flows into the area, giving the water a brackish quality.

Inside we find a permanent exhibition showing the most important birding areas of Majorca. Each exhibition panel explains where these areas are located, which are the most representative species and recommendations for their observation.

At the Birding Centre we can also find information about natural parks and public estates, as well as field guides and reference books. Staff specialized in ornithology are also available for information and will recommend the best places for birding and the species that are likely to be seen each season.

The Birding Centre is open from February to November.

## AUTUMN FAIRS AND MARKETS

**Meeting point for craftsmanship and tradition in Mallorca.**

Agriculture, crafts, culinary and local produce fairs feature all year round on the annual calendar of the islands. If we focus on autumn we will find some of the most interesting. Perhaps the most complete fair is Dijous Bo in Inca (November); it is also one of the busiest and most popular on the island. Another highlight, during the first weekend of November, is Marratxí's Fira de tardor, more crafts-oriented, the Muro pumpkin fair (November), Caimari's Fira de s'Oliva (third weekend of November) or the Llubí honey fair (November).

Don't forget that every day there is a market in one of the villages of the island, a perfect outing for you to purchase local products such as oil, sobrasada, cheese, shoes, clothes, ceramics... you are certain to find your perfect souvenir.

North Mallorca:

# INSPIRATION FOR ARTISTS SUCH AS RAMON LLULL, ARCHDUKE LUDWIG SALVATOR, ROBERT GRAVES AND CHOPIN

The Serra de Tramuntana, imposing and evocative, is Mallorca's largest natural space with Deià and Valldemossa as reference points. It combines rural elements that have also been shaped by human hands, and which have been a source of inspiration and curiosity for great figures that are unquestionably associated with the location. Ramon Llull found peace

in Miramar where he wrote part of his works. Later, the Archduke fell in love with this spot where he could enjoy the sea and which still retains all its splendour today. Its peace and beauty inspired Robert Graves to settle in this paradise of olive trees and agricultural terraces, where the whisper of Chopin's melodies mark the rhythm of the spectacular sunset.

Menorca, s'Albufera des Grau

# BIRDWATCHING IN S'ALBUFERA DES GRAU NATURE PARK

Discover the species of birds that rest on their migratory journey on the island of Menorca. Many are surprised to discover this part of Menorca. S'Albufera des Grau is a beautiful natural park of more than 5,000 hectares of wild olive trees, wetlands and dune beaches stretching from Mahon to Es Mercadal. There are three different routes through the Park. Two of them start

at the Reception Centre and include birdwatching spots, ideal for birdwatchers who wish to see a multitude of water birds and birds of prey from close quarters. The third begins in the village of Es Grau and runs parallel to the coast. And don't forget to stop at the Favartix Lighthouse with its astonishing lunar landscape. There is nothing quite like it in all of Menorca!

Menorca, Ciutadella

## PEDRERES DE S'HOSTAL

**Delve into the sculpted landscape of this breath-taking place.**

After it ceased to extract stone, an original initiative of the Líthica association turned this former Menorcan marés (sandstone) quarry into a monumental sculpted landscape that will leave you amazed by its beauty. A space in which the results of mechanical and manual quarrying coexist with labyrinthine stone structures and a huge garden: it's definitely worth a visit. And if you get the chance, make sure you take in one of the many cultural activities – concerts, festivals and exhibitions – held in this unique enclave throughout the year. Pedreres de s'Hostal is just 1 km from Ciutadella.

## TALAYOTIC ROUTE: THE STONES SPEAK

**Treat yourself to a walk through the oldest history of Menorca.**

Thousands of years ago prehistoric civilisations built the talayots, a kind of stone tower that probably served as housing, watch towers and defence towers. Navetas, taulas, burial caves and talayots today form an impressive network of perfectly preserved remains that have been nominated for inclusion on the UNESCO World Heritage List. Although you'll find more than 1,500 sites spread throughout Menorca, some are a must-visit: the Naveta des Tudons, a funerary construction that you will only find on this island, or the Talayotic villages of Torre d'en Galmés and Trepucó, have some of the most spectacular ruins. Treat yourself to a walk through Menorca's ancient past!

## CAMÍ DE CAVALLS ON HORSE, BIKE OR FOOT

**Discover unique places on the island of Menorca, crossing the Camí de Cavalls.**

The Camí de Cavalls is a historic path that runs along the entire coastline of the island. 185 km, 20 waymarked stages and thousands of treasures to be discovered on each section. From 1330 it was patrolled by the troops of King Jaime II, who watched over the coast from this beautiful path; the English and French later also made use of this coastal way with its spectacular views. Using it today gives you the opportunity to discover the most idyllic coves and beaches, natural spaces like s'Albufera des Grau or Cap de Favaritx, defensive towers, farmlands, wetlands, cliffs and dunes. You can get around on foot, bicycle or horseback; however you decide to do it you will have an amazing experience!

## VISIT THE LLOCS OF MENORCA

**Icons of the Menorcan landscape where you can savour the best Mahón cheese.**

The agricultural landscape of Menorca is dotted with llocs, isolated white houses surrounded by cereal fields and verdant grassy meadows. The land is home to grazing cows whose milk is used to make the renowned Mahón cheese, protected under a Designation of Origin. You can visit many of these llocs, often buildings of great architectural interest, complete with dairies, bread ovens, pantries, cold stores, livestock pens, coach houses and stables.

At the llocs you can also learn how Menorca's star product - Mahón cheese - is made. The Cheese Route includes all the cheesemakers where you can taste, buy and explore the world of this product, visiting places where cheese becomes an experience for all the senses. Let the best producers explain the secrets of this product, while you enjoy its choicest morsels.

## IBIZA'S WHITE CHURCHES, SANCTUARIES FROM THE PAST

**Discover the spirituality of the island of Ibiza visiting their traditional fortress churches.**

There was once an island in the Mediterranean known as the "White Island" because all the buildings on the island were white. Although Ibiza today is awash with colour, it still retains its distinctive white churches, unique in the world, as they were designed as fortresses to protect the population from pirate attacks. Many of them still have defensive towers and look much like fortified castles. They are also the centre of the everyday lives of the village populations, a meeting place and a venue for parties and concerts. Discover for yourself the original architectural heritage of the island!

## DRAMATISED VISITS TO THE NECROPOLIS OF PUIG DES MOLINS: THE LEGACY OF ANCIENT CIVILISATIONS

ALL YEAR, THE LAST  
SUNDAY OF EACH MONTH

**Learn how ancient people lived on the island of Ibiza.**

There are many ways to discover the traces of ancient civilisations on Ibiza, but none is as immersive and rewarding as this. Discover the past of the island narrated and represented by actors; a great day out for the whole family, an experience that delights both young and old. Through these dramatised tours you will relive the daily life of the Punic, Phoenician and Roman eras, their customs and funerary rites. And this will help you appreciate the value of the necropolis of Puig des Molins, an archaeological treasure with its splendid collection of sarcophagi and funerary elements for which it has been designated a World Heritage Site by UNESCO.

## DRAMATISED VISITS TO DALT VILA

EVERY SATURDAY

**Travel back in time to medieval Ibiza.**

The cultural and ancestral heritage of Ibiza impresses visitors even more than its beaches. The walled enclosure of Dalt Vila, declared a World Heritage Site by UNESCO, is, along with the white churches that dot the island, one of the greatest examples of the island's architectural legacy.

An original way to see Dalt Vila is to attend the dramatised visits held there every Saturday. Actors vividly and spontaneously portray what life was like when this fort was built. A trip back in time to better understand Ibizan society.

## PALMA EARLY MUSIC FESTIVAL

This festival is traditionally held in venues with an important historical significance such as churches in Palma. In this way the heritage of the building is connected to the event, and as a result the music is enhanced and disseminated. The festival also inspires research into early music, as forgotten pieces from the musical repertoire are continually being recovered, giving rise to important studies in the field of the history of music, and all this sometimes using ancient instruments. The aim of the festival is to bring early music both to a specialised public and to the general public.

The dates for 2018 are Friday 5 October, Saturday 13, 20, 27 October and 3 November in various churches in the city. Entry is always free.

## SALT FAIR

The Salt Fair is held in October in Ses Salinas in Ibiza, an event that aims to raise awareness of the island's salt heritage, culture and traditions. The fair opens with a "fogueró" at the Era de l'Antic Nunt de Sal, as a reminder of the way the salt workers were summoned from across the island to work on the extraction of salt. At the Sa Sal Rossa Tower, which protected the old salt jetty, there are dramatized tours featuring characters dressed up as salt watchmen and pirates, and the Ses Salines d'Eivissa i Formentera Natural Park, the islands' most important and valuable natural space because of its immense biodiversity and unique ecosystems, also offers guided visits throughout the morning from the Interpretation Centre.

At midday restaurants in the area take part by offering a special menu of traditional dishes made from seasonal produce, with salt from Ibiza as the star of the show.

The fair is a tribute to the people who worked in the saltpans and, through various activities, it reveals the traditions that surround the manual extraction of salt.

## THE CATHEDRAL'S FIGURE OF EIGHT

NOVEMBER 11 / FEBRUARY 2

### Magic and Mystery in the Cathedral of Mallorca.

It happens only twice a year: the Cathedral's large and small rosettes align to form an 8 wrapped in magic and mystery. The two dates are 2/2 and 11/11, Candlemas and Saint Martin's Day, respectively. Experts say that the rosettes were not specifically designed to create this phenomenon, a fact that intrigues the general public all the more. The first rays of morning light illuminate the main facade triggering an explosion of colour from the 1,116 pieces of glass that make up the larger stained glass window, also known as the “Gothic Eye”. This Gothic jewel can be admired any day of the year. So go see it for yourself...

## THE SONG OF THE SIBYL

DECEMBER 24

Christmas Eve on Mallorca has a very religious tone. Virtually all the churches on the island celebrate *Matines* (Midnight Mass) to commemorate the birth of Jesus. The highlight of this gathering is the *Cant de la Sibil·la*, which fills awestruck listeners with wonder year after year. Declared a Masterpiece of the Oral and Intangible Heritage of Humanity by UNESCO in 2010, this is a sight worth seeing. The song is ancient but the tradition is preserved only in Alghero (Sardinia) and Mallorca. The most spectacular matines are those of the Cathedral and the Sanctuary of Lluc, where the children's choir known as *Els blauets de Lluc* round off a night full of fellow feeling and good wishes with their extraordinary voices.

## PALMA NATIVITY ROUTE DECEMBER-JANUARY

## Christmas comes to the city of Palma.

When Christmas arrives in Palma it brings with it all sorts of figures and ornaments. It is time for families to take to the streets to browse and do some shopping. At the same time convents, churches and cultural centres exhibit their nativity scenes, some of them real treasures like the Palau March nativity scene, an eighteenth-century Neapolitan nativity scene composed of more than two thousand meticulously crafted pieces, or the nativity scenes of the convents such as the Monastery of Purísima Concepción, Santa Magdalena and Santa Clara. And continue the route to the Sa Nostra Social Centre to see its curious island-shaped traditional Mallorcan nativity scene. The Palma City Council nativity scene is set in one the most emblematic places in the city, the most nostalgic without a shadow of a doubt! And there are more; come and see them for yourself!

**FESTES DE SANT ANTONI  
ABAD MENORCA**

JANUARY 17

Menorca celebrates the festivities honouring its patron

This is a festival that is celebrated throughout the island as Sant Antoni Abad is the patron saint of Menorca. On the eve of the festival (January 16) *foguerons* (bonfires) are lit in the streets and squares so people can roast their *sobrasada* and *botifarrons* and begin to celebrate the big day, on January 17. *Ses beneïdes* (the blessing of animals) is one of the most popular activities. Menorcans take their pets to be blessed as farmers used to do with their cattle so that the coming year would be productive and to venerate Sant Antoni, patron saint of animals. It is a very festive day with a great variety of events, markets, parades... In Ciutadella, for example, the "*tres tocs*" procession symbolises King Alfonso III's entrance into the city in 1287, when he freed Menorca of its Muslim occupiers.

LLATZERET IN MAÓ

MARCH / OCTOBER

The arrival of the Bubonic plague on Menorca's shores from ships coming in from the East and from northern Africa prompted the Count of Floridablanca, Minister of King Carlos III to commission the building of the Llatzeret in Maó on the King's orders in 1793.

This unusual historical building complex was originally meant as a sanatorium where patients could be quarantined during the constant outbreaks of Bubonic plague. The British government had already built a small complex on what was known as Illa de la Quarantena ("quarantine island"), which was used in the 19th century when the harbour became severely congested. The sanatorium was opened in 1817 and was closed down after a century until, years later and following some refurbishment, it was converted into a venue for meetings and for national and international conferences. It is also a place where visitors can get a sense of what life was like in the 19th century, thanks to the wonderful spaces and buildings that have been preserved all over this small island.

The complex was declared an Asset of Cultural Interest in 1993 and is in one of the most beautiful places on the Menorca coast, on a small island in the centre of the harbour of Menorca's administrative capital.

**The queen of light sail regattas.**

We love regattas. It would be a waste if we didn't take full advantage of all that the Mediterranean Sea offers. So in our waters many nautical events take place, like the SAR Princesa Sofía. It is a dinghy sailing competition held every year in Mallorca. Organised by the Real Club Náutico de Palma, Club Náutico del Arenal and the Club

Marítimo San Antonio de la Playa, it is one of the most important events of the competitive sailing calendar in the country. Since its first edition in 1968, this event has retained all of its prestige and garnered great media attention, making this competition one of the most keenly anticipated moments of spring on the island.

# ALL ROUND TRAIL FORMENTERA

MARCH

**It's a date for runners on the island of unending expanse of blue.**

One of the most keenly anticipated sporting events on Formentera. The All Round Trail is a 72.5 km race that goes around the island: it starts and finishes in the port of La Savina. Two more races are held at the same time: the Half Round Formentera Trail, a 40.5 km route that starts in Es Arenals, and the Tros de Fart, a 21 km route starting in Es Caló, both of which also finish in La Savina. This is a tough trail, rewarded, as ever, by the beauty of the location.

### Running with the sunset.

Ibiza Marathon is living proof that this island offers its visitors much more than sun, fun and beaches. Sport also shares the billing with leisure and culture, and in 2017 this 42.195 km competition will be launched to complement the other events that have already established themselves on the island, such as the Half Marathon and Ironman Ibiza. The aim of the organisers of Ibiza Marathon is to put Ibiza on the world map of marathons. The competition includes several parallel activities, such as a 15 km race and a running fair to replace Touribisport, retaining the name. The race takes place in the evening, between Vila and Santa Eulària des Riu.

The upcoming race edition is also its 22nd anniversary; therefore some new features are currently under preparation, soon to be announced. # A DATE WITH WINE

In the middle of spring, the month of April in Mallorca offers the opportunity to discover and sample some of the best Mallorcan wines which come together at two of the main oenological events that take place on the island: the Pollença Wine Fair and the Wine Night in Palma. In the north of Mallorca, the town of Pollença, bathed by the intense blue waters of the Mediterranean and carved at the foot of the Serra de Tramuntana mountain range, hosts the Wine Fair in the beautiful Santo Domingo cloister, a well established event that brings together wine professionals and wine lovers, with almost 400 wines to sample. In Palma, the Wine Night (Nit del Vi) is a great way to discover new wines from Mallorca’s small winemakers. The cloister of the La Misericòrdia Cultural Centre is the setting for sampling and discovering first hand new wines presented by local winemakers.

# EASTER HOLIDAY IN MALLORCA

## HOLY WEEK

**Meditation, religion and devotion flood Easter.**

This is part of the tradition and culture of all the towns and villages of Mallorca and is celebrated in a variety of different ways. Starting with the traditional processions of Easter Sunday, which fervently celebrate the resurrection of Christ, although the most spectacular will take place in the preceding days, during Holy Week, and include Crist de la Sang in Palma and the Oratori del Calvari in Pollença. But besides processions, Easter is a time when the people of Mallorca love to eat. Family cooking traditions include typical sweets like “robiols” and “crespells” and succulent pies made with meat and peas that we call “panades”. Ah! And Easter Monday is when the chocolate eggs are eaten, a real treat for those with a sweet tooth.

# RUTA DE LA SAL REGATTA

## HOLY WEEK

**Plying the roads of salt.**

It all started in 1846 to rescue Barcelona from a shortage of salt that was becoming a threat to the city. A businessman had a brilliant idea: to invite the most famous sailors of the moment to accept the challenge of transporting salt from the Salt Pans of Ibiza and Formentera to Barcelona. In 1989 the idea was revived and adapted to a sports competition and the event has gone from strength to strength since then. Up to 300 boats compete every April for the prestigious Salt Route Regatta trophy.

Sitges - Formentera

# THE OPHIUSA REGATTA

The Ophiusa Regatta starts in the port of Sitges and ends in the port of La Savina, on Formentera. The lovers of ocean races will find in this competition the most important regatta of their sports calendar.

Strategy and navigation combine to turn the Ophiusa Cruceros regatta into a pure ocean regatta, which has found new supporters every year, because it is a very selective and hard-fought regatta.

The waters of Formentera are filled every year with boats fighting for the trophy in a unique festive atmosphere and attracting the national and international press. The regatta is still young, but it already enjoys high standing among the lovers of classic sailing. From the land, the audience enjoys the sight of the regatta with its magnificent sailors and the ambience of the crews' lives when they go ashore.

If you visit Formentera in April, you will find a true sport paradise, the perfect ingredients for all sports in the open air thanks to its great ally: the sun that raids the island 365 days a year.

**21 kilometres of pure nature.**

This is much more than a sporting challenge. The Fornells Half Marathon offers its participants the opportunity to enjoy the cultural and culinary landscape, and the scenery, of one of the most beautiful islands in the Mediterranean. This sporting event holds its 7th edition in 2019 and its growing number of fans is proof of its rude health and excellent track record.

## SOL HALF MARATHON MAGALUF

28 APRIL

**Races: Urban mile, 10 km, 21 km, children's race**

The SOL HALF MARATHON MAGALUF is a two distance race event (21 km and 10 km) that takes place during the last weekend of April in Magaluf (Calvià, Mallorca). The race, which has been held for over 30 years, has undergone some changes over the last 5 years, and it is now the best half marathon in Mallorca.

The event has three main characteristics:

**Spectacular route:** designed by athletes from the local district and experts in the organisation of such events, the route combines the fastest sections in the area with the attraction of running between the coast and the busiest parts of Magaluf and Palmanova. The finishing line is particularly striking, located on a walkway on Magaluf beach, meaning you finish with the Mediterranean Sea and the island of Sa Porroxa in the background.

**All the services:** the organisation works to provide athletes with an unforgettable race experience, offering all the first rate services you would expect.

**Parallel activities:** children's races, urban mile, pasta party, conferences and street entertainment during the races are just some of what is on offer during the revamped Sol Half Marathon Magaluf.

Tradition and colour commemorating the miracle of the Vella church

Legend has it that the first church was built on a small hill near Ses Estaques. As the churchgoers were leaving Mass, a huge roar was heard; the church had collapsed after everyone had vacated the building. It was a miracle! Since then, on every first Sunday of May this joyous festival takes place in Santa Eulària des Riu with festooned floats and women and men dressed in the traditional costumes of the island. The festival commences with the enthusiastic cry of "Anam a Maig" and reaches its end with the cry of "Venim de Maig". Not to be missed!
